### ***Re: SCDHEC-OCRM Critical Area Permit Applications***

In order to facilitate efficient processing of critical area permit applications, beginning **September 22, 2008**, SCDHEC-OCRM will screen critical area applications more stringently for administrative completeness. An application will be deemed administratively incomplete unless all requisite items are submitted to the Department. The requisite items are listed in the Critical Area Regulations under R.30-2.B

Staff will determine the completeness of an application upon receipt and will notify the applicant (or agent of record) in writing if the application is **incomplete**. The notification will identify deficiencies on an accompanying checklist. Additionally, the fee check will be voided and returned with the notification. SCDHEC-OCRM will hold the incomplete submittal for **thirty days** from the date of the notification. If after thirty days, SCDHEC-OCRM has not received all of the requisite information, the application will be deemed withdrawn and the submittal will be destroyed. SCDHEC-OCRM will not keep copies. For informational purposes, the checklist from the current critical area permit application package is attached.

SCDHEC-OCRM's technical review for each application will begin only when a complete application package has been submitted. The assigned project manager may require additional technical information prior to being able to place the project on SCDHEC-OCRM public notice. The required newspaper notice must meet the requirements of R.30-2.B(7). The project manager for the region will coordinate with the applicant/agent on when to timely publish the newspaper notice.

The critical area permit application is available at local SCDHEC-OCRM offices or on-line at [http://www.scdhec.net/environment/OCRM/permit/docs/FORMS/Critical\\_Area/DHEC\\_3898.pdf](http://www.scdhec.net/environment/OCRM/permit/docs/FORMS/Critical_Area/DHEC_3898.pdf)

\*\*\*

As of **September 22, 2008**, SCDHEC-OCRM will require an OCRM-approved critical area line to be shown on the submitted application drawings. An approved critical area line must be depicted on a survey performed by a professional surveyor and reviewed by the Department in order for the Department to validate the location of the boundaries of the coastal waters or tidelands critical area on the survey. Department Staff must approve the line prior to submittal of the permit application. Furthermore, the required as-built survey (required upon project completion) should also reflect this line.

You may contact the Wetland Section Coordinator at 843-953-0233 if you have any questions about this notice.

### **IMPORTANT: Read this page before attempting to complete this application.**

All activities which result in the alteration of the coastal waters, tidal wetlands and beach/dune system require authorization from the SCDHEC Office of Ocean and Coastal Resource Management.

#### **Permit Application Checklist:**

- ☐ 1. Two page application form (pages 4 and 5) filled out completely, **signed by the applicant and the agent (if there is an agent)**. Print clearly and use black ink. (See examples on pages 9 and 10)
- ☐ 2. The non-refundable administrative application fee (see fee schedule on page 2). Make checks payable to SCDHEC-OCRM.
- ☐ 3. Affidavit of Ownership or Control form (page 6) completed, signed and notarized, including one of the following: 1) Legal description and/or copy of the certified plat of the property 2) A certified copy of the deed, lease, easement, or other instrument under which the applicant claims title, or permission from the owner of the property to carry out the proposed activity. Please note that professional dock drawings do not satisfy the proof of ownership requirement.
- ☐ 4. **As of JULY 24, 2006, all drawings submitted as required by any application/amendment request must be produced, stamped and signed by one of the following professional groups: registered land surveyors, registered professional engineers, registered landscape architects. These individuals must be licensed in the state of South Carolina. OCRM will not accept hand drawings or other drawings not meeting these criteria. Applications with drawings judged to be inexact and unprofessional will not be placed on public notice and will be returned to the applicant.**
- ☐ 5. A location map(s) showing the location of the proposed activity. (See requirements and instructions on page 5.)
- ☐ 6. Submit 1-5 above to SCDHEC-OCRM. An OCRM project manager may require additional information.
- ☐ 7. Run newspaper public notice (see page 7) and when available submit the affidavit of publication to OCRM. **\*\*The newspaper notice must run within fifteen days of the OCRM public notice. Affidavits of Publication outside of this window will be returned and a new ad will need to be placed in the appropriate newspaper.**

## **SPECIAL NOTES**

**\*DMPs**                      Dock Master Plans - OCRM is reviewing the listed DMPs for planning purposes only. Permitting decisions will occur when future dock applications are processed by OCRM for individual property owners. This document is used as a planning tool it is not subject to the appeal. OCRM welcomes comments from the public on these planning documents.

**\*\*WMPs**                      Wetland Master Plans – OCRM is reviewing the listed WMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM, which include impacts to freshwater wetlands. This document is used as a planning tool; it is not subject to appeal. OCRM welcomes comments from the public on these planning documents.

**\*\*\*SWMPs**                      Stormwater Master Plans – OCRM is reviewing the listed SWMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM. OCRM welcomes comments from the public on these planning documents.

**\*\*\*\*PERs**                      Preliminary Engineering Reports – OCRM is reviewing the lists PERs for the purpose of commenting to other sections of DHEC concerning this document. OCRM will not be issuing a coastal zone consistency certification at this time but providing comments. If this proposal moves forward to the permitting process, OCRM would at that time do a full coastal zone consistency review.

**Permit Number:** OCRM-08-150-B  
**Permit ID:** 63692

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

**APPLICANT:** Al Hutchinson  
C/O Docks Unlimited, Inc.  
P.O. Box 349  
Mount Pleasant, South Carolina 29465

**LOCATION:** On and adjacent to Hobcaw Creek at 620 Cain Drive, Somerset Point Subdivision, Mount Pleasant, Charleston County, South Carolina. TMS # 535-03-00-013

**WORK:** The work as proposed and shown on the attached drawings consists of modifying an existing dock. The proposed dock modification will consist of removing an existing 6' x 8' boatlift and replacing it with a 10' x 16', four-pile boatlift. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

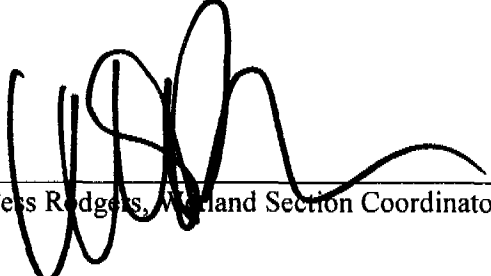

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

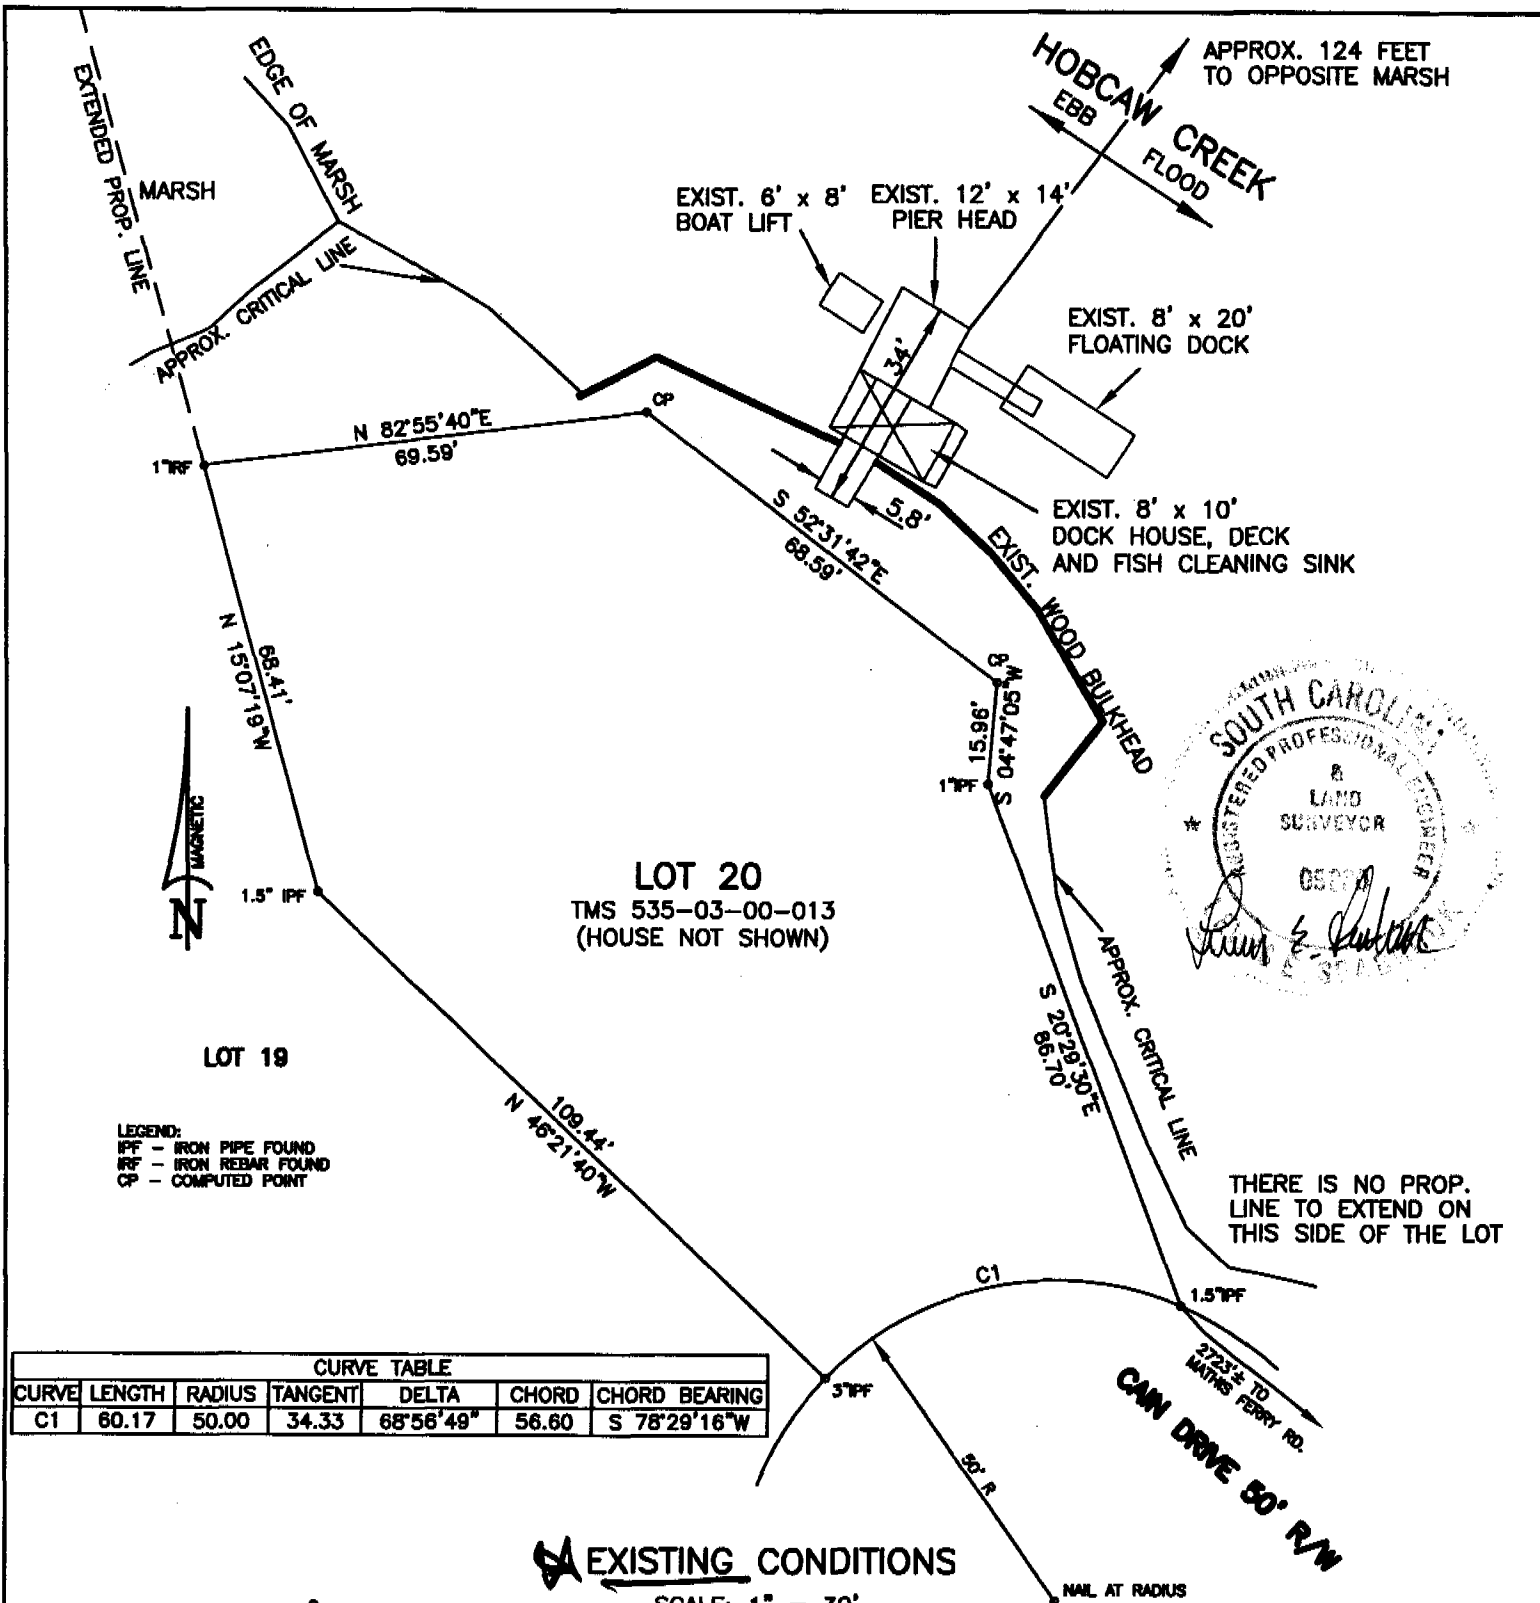

***To assure review by OCRM, comments regarding this application must be received by OCRM on or before September 6, 2008. For further information please contact the project manager for this activity, Steve Brooks at 843-953-0235.***

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT  
PERMIT APPLICATION PUBLIC NOTICE**

**August 22, 2008**

**Permit Number:** OCRM-08-197-B  
**Permit ID:** 64314

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

**APPLICANT:** Steve and Burns Taylor Weavil  
C/o Lowcountry Permitting Solutions  
2570 John Boone Court  
Mount Pleasant, South Carolina 29466

**LOCATION:** On and adjacent to Horlbeck Creek at 2739 Royall Trace Ln, Brickyard Plantation  
Subdivision, Mount Pleasant, Charleston County, South Carolina. TMS#: 580-02-00-087.

**WORK:** The work as proposed and shown on the attached drawings consists of modifying an existing dock. The proposed dock modification will consist of removing an existing single-pile boatlift and replacing it with a four-pile, 12' x 12' boatlift. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

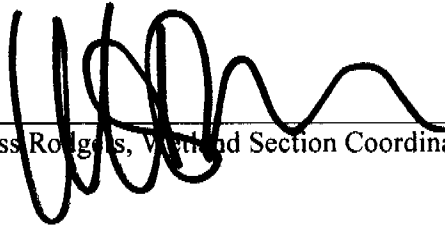

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

***To assure review by OCRM, comments regarding this application must be received by OCRM on or before September 6, 2008. For further information please contact the project manager for this activity, Steve Brooks at 843-953-0235.***

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT  
PERMIT APPLICATION PUBLIC NOTICE**

**August 22, 2008**

**Permit Number:** OCRM-08-203-B  
**Permit ID:** 62601

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

**APPLICANT:** Daniel Island Company  
C/o Thomas & Hutton Engineering Company  
935 Houston Northcutt Boulevard  
Mount Pleasant, SC 29464

**LOCATION:** On and adjacent to Ralston Creek on Rhoden Island, Daniel Island, Berkeley County, South Carolina. TMS # 275-00-00-092

**WORK:** The work as proposed and shown on the attached drawings consists of installing approximately 1,000' long revetment consisting of geotextile fabric, anchoring structures, and an articulated concrete block mattress. The work as described is to provide erosion control along a section of an eroding creek bank.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

***To assure review by OCRM, comments regarding this application must be received by OCRM on or before September 6, 2008. For further information please contact the project manager for this activity, Steve Brooks at 843-953-0235.***

## **PUBLIC NOTICE AMENDMENT REQUEST**

The permittees for P/N# **2000-1E-199-P, William E Cale and Phillip & Ellen Morton**, have requested an amendment to that issued permit. Specifically, the applicants propose to construct a 4'x805' walkway, with handrails, leading to a 10' x 20' fixed pierhead. Off of each side of the pierhead, 4'x24' ramps will lead to 8'x16' floating docks. Landward of each floating dock, a 11' x 16' floating jetski dock is proposed. The proposed amendment is for modifications to a private recreational joint use dock located on and adjacent to Huspha Creek at lots 148 & 149 Bull Point Drive, Bull Point, Seabrook, Beaufort County, South Carolina.

**Written comments will be received on this amendment request until September 1, 2008 at the address listed below. For further information please contact the project manager, Geordie Madlinger, at 843-846-9400.**

## **TO ALL INTERESTED PARTIES**

### **Notification of Public Notice**

Enclosed are public notices issued by the SCDHEC Office of Ocean and Coastal Resource Management and the U.S. Army Corps of Engineers. All interested parties are allowed 30 days for major developments and 15 days for minor developments after receipt of the public notices to file written comments to the OCRM pertaining to the applications. Only those comments received within this period must be reviewed by the OCRM in processing the permit application. Any person wishing notification of the initial OCRM decision on any specific public notice must make written request within the designated review period for that public notice.

**TOOGOODDOO CREEK**

at 7566 Ethel Post Office Road in Meggett, Charleston County, South Carolina (32.678879 Latitude/ 80.296184 Longitude)

In order to give all interested parties an opportunity to express their views

**NOTICE**

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

**12 O'CLOCK NOON, MONDAY, SEPTEMBER 22, 2008**

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of the construction of a 6' X 536' walkway with handrails leading to a 20' X 12' fixed pierhead with a 3' X 20' ramp connecting to a 12' X 40' floating dock, and one mooring dolphin located 25' from the end of the floating dock. The dock will also include water intake lines and pumps. The purpose of the proposed dock is to reach the waters of Toogooddo Creek to obtain the necessary higher quality saltwater (high salinity and cool temperature) and larger quantities of water for operation of the adjacent oyster and clam seeding commercial aquaculture facility. An existing shorter commercial dock with intake lines and pumps is present and will remain.

22 August 2008

**NOTE:** Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

**U.S. Army Corps of Engineers  
ATTN: REGULATORY DIVISION

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact 3996 square feet of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

Pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended), the District Engineer has consulted the most recently available information and has determined that the project is not likely to adversely affect any Federally endangered, threatened, or proposed species or result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request for written concurrence from the U.S. Fish and Wildlife Service and/or the National Marine Fisheries Service on this determination.

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

REGULATORY DIVISION

Refer to: P/N # 2008-1625-1IT

22 August 2008

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact Tracy C. Dotolo at 843-329-8044 or toll free at 1-866-329-8187.
